CAREER OBJECTIVE

Motivated and detail-oriented Software Engineering student aspiring to build a career as a Full-Stack Developer. Seeking an internship or entry-level opportunity to apply and expand my frontend and backend skills, while delivering robust, secure, and user-friendly web solutions.

WORK EXPERIENCE

Full-Stack Developer | Ongoing

Self Projects & Practical Learning

- Developing end-to-end web applications with interactive user interfaces and robust backend logic.
- Integrating responsive frontend designs with relational database systems to ensure dynamic data rendering.
- Writing clean, modular, and reusable code for seamless frontend-backend communication.
- Utilizing Git/GitHub for version control and collaborating on full-stack code integration.

PROJECTS

Task Planner App (Full-Stack)

A lightweight web application designed to help users create, view, update, and delete daily tasks. Developed an intuitive frontend, created a secure backend API, and connected the system to a relational database for permanent task storage.

Technologies: HTML, CSS, JavaScript, Python, SQLite/MySQL

Student Portal

Designed and implemented a web application enabling user registration, login authentication, and student data management. Configured local JSON storage pipelines and built the backend service using Python.

Technologies: HTML, CSS, JavaScript, Python, JSON

My Introduction (Personal Portfolio)

A fully responsive personal introducing page featuring a custom animated background video, custom styles, an interactive skills list, and a functional contact portal.

Technologies: HTML, CSS, JavaScript

Smart City Management System (Full Stack)

Developed a full-stack citizen portal for complaints, emergency reporting, notifications, profile management, and complaint tracking. Built REST APIs with Express.js and MySQL for citizen and complaint management. Created responsive dashboards and service interfaces using React and TypeScript. Implemented complaint status tracking, citizen profile management, photo

Technologies: React.js, TypeScript, Node.js, Express.js, MySQL, REST APIs

TECHNICAL SKILLS

Frontend Development

React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design

Backend Development

Python (Flask/APIs), Java Basics, JSON Integration

Databases & Architecture

MySQL, SQL Server, Complex JOINs, Indexing, Query Optimization, Schema Design

Tools & Workflows

Git, GitHub, VS Code, Database Migration Tools

EDUCATION

University of Central Punjab, Lahore

Bachelor of Software Engineering

In Progress / Completed

EXPERIENCE

Decode Lab (Remote)

May 20, 2026 — June 20, 2026

Ezitech Software House , Islamabad

Jul 27, 2026 — Oct 27, 2026
